🔗 LeetCode

Driven and disciplined B.Tech undergraduate specializing in Artificial Intelligence with a strong foundation in software engineering and problem-solving. Demonstrated track record of academic excellence and rapid adoption of emerging technologies. Seeking to leverage expertise in full-stack development, OOP, and AI tools to deliver impactful, practical solutions within a dynamic internship environment. Adept at collaborative teamwork and committed to continuous technical refinement to support organizational goals.

### TECHNICAL SKILLS

#### Programming Languages

Java, Python, C

#### Web Technologies

HTML, CSS, Flask, Bootstrap,  
MERN Stack (Certified)

#### Databases

MySQL

#### Core Competencies

Object-Oriented Programming  
(OOP), Data Structures &  
Algorithms, Prompt Engineering,  
Version Control (Git/GitHub)

### EDUCATION

#### B.Tech in Computer Science and Engineering (AI)

*Expected 2028*

G.L. Bajaj Institute of Technology  
& Management, Greater Noida,  
U.P.

#### Higher Secondary School (CBSE)

*2023*

Lucknow Public School, Sitapur,  
U.P.

Score: 88%

#### High School (CBSE)

*2021*

Lucknow Public School, Sitapur,  
U.P.

Score: 94%

### TECHNICAL PROJECTS

#### Student-Buddy Chrome Extension

- **Engineered** "Student Buddy," a browser-based productivity Chrome Extension using HTML, CSS, and JavaScript to centralize and streamline academic task management.
- **Integrated** standard web APIs and local storage to persistently save user data, study schedules, and task states across browser sessions without requiring an external database.
- **Designed** a responsive, low-latency popup interface featuring interactive to-do lists and study timers, significantly enhancing user workflow and time management.

#### Face-Recognition Based Attendance System

- **Architected** a real-time, webcam-based attendance tracking application utilizing Flask to serve a responsive web interface.
- **Integrated** OpenCV for video capture/processing and MediaPipe Face Mesh for extracting facial landmarks and embeddings.
- **Engineered** an efficient data pipeline using NumPy for embedding storage and automated CSV generation for daily attendance logging.

### CERTIFICATIONS

- Data Structures & Algorithm Certificate
- Full MERN Stack Developer Certificate
- TCS iON Career Edge Young Professional Certificate

### INTERESTS & HOBBIES

**Technical Interests:** Web Development, Database Management Systems, Computer Networks, AI Agents and Automation.

**Hobbies:** Exploring emerging tech and AI tools, reading self-help literature, and curating music playlists.
